About Me

I am a highly motivated MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Passionate about building clean, responsive, and scalable web applications using modern UI/UX principles. Seeking opportunities to contribute to real-world projects and grow as a professional Full Stack Developer.

Strengths

- Strong knowledge of HTML5, CSS3, JavaScript (ES6+) and React.js
- Experience in creating responsive and user-friendly interfaces
- Quick learner, adaptable to new technologies
- Good problem-solving and logical thinking skills
- Effective team player with communication skills
- Detail-oriented, focused on clean and efficient code
- Familiar with Tailwind CSS, DaisyUI, Firebase Authentication, and basic MERN stack

Experience

MERN Stack Developer (Self Projects) 6 Months Experience

- Built multiple full-stack web applications using MERN stack
- Developed responsive UI using React.js
- Created REST APIs using Node.js & Express.js
- Implemented CRUD operations with MongoDB
- Used Git & GitHub for version control

Projects

- Car Doctor Resource – Full-stack service booking system
- ParcelPro – Parcel management web app
- A-Gardening Community – Community-based platform
- Medical Appointment App – Appointment booking system
- Coffee Subscription Website – Subscription-based React app
- E-Commerce Project – Basic online store system
